

EMPLOYER REGISTRATION FOR TRACK SAFETY AWARENESS TRAINING

As an RTO it is important that we not only record Employee details but also Employer details. Each Employer must be registered with GoTrain Rail using the Form provided. Training will only be provided to registered employers.

This registration provides GoTrain Rail with your organisation's written undertaking that:

- a) The Employees receiving training have been visually verified by the Employee and that their identity has been proven. (Drivers Licence Check or similar)
- b) That the Employee will undertake online training in a supervised environment, without external assistance.
- c) Your company will immediately advise GoTrain Rail if there is a change in the Employees circumstances and ability to safely enter a Track Safety Environment i.e. health issue, Safety Incident etc.

Requests for training can be either:

1. Online at www.gotrainrail.com.au using Credit Card payment.
2. Or Via the Track Safety Awareness Application form on our website. A 10% surcharge applies to non online enrolment applications.
